

Prevent others from digging into your retirement account

REGISTER TODAY AT MILLIMANBENEFITS.COM

You have money in your retirement account. It's your responsibility to help keep this money safe.

Step 1: Register your account.

To start, go to **MillimanBenefits.com**. For security reasons, you will need to take several steps to verify your identity in order to set up your account. These steps help prevent others from accessing the money in your account.

- Click on "Create an account" and follow the prompts to begin the registration process. You will need a Registration PIN (Personal Identification Number) to continue the log-in process.
- Because you don't have an email address on file, the website will prompt you to request a Registration PIN that will be mailed to your address on file. Once received, enter this PIN at **MillimanBenefits.com** to continue the registration process.
- Finally, set up your username, password, security questions and preferred contact information. You'll receive a letter in the mail confirming your successful registration.*

Step 2: Keep us updated.

Keep your passwords secure and your contact information updated. It's critical that Milliman has an email address and/or cell phone number that you regularly monitor. You need to respond to Milliman immediately if there's activity on your account that you did not initiate.

Need Help?

Call the Benefits Service Center at 1.866.767.1212 or use Web Chat on **MillimanBenefits.com**. Representatives are available Monday through Friday from 7 a.m. to 7 p.m. Central time.

* As part of your registration, the system will lock your account automatically to prevent unauthorized withdrawals. We recommend that you keep your account locked until you are ready/eligible to start taking distributions. In order to unlock your account, you'll need the code in your registration confirmation letter. Keep this letter in a safe place so you will have it when you need to unlock your account. Otherwise, you will experience a delay while you wait for Milliman to mail a new code to you.

Why Register

- Protects your retirement money.
- Provides you with up-to-date account information.
- Gives you immediate alerts about account activity.
- Helps you avoid delays when you're ready to withdraw funds.
