The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. NOTE: Information about the cost of this plan (called the premium) will be provided separately. This is only a summary. For more information about your coverage, or to get a copy of the complete terms of coverage, visit the Fund's website at www.ufcw1189benefits.com or call the Fund Office at 1-800-535-6373. For general definitions of common terms, such as allowed amount, balance billing, coinsurance, copayment, deductible, provider, or other underlined terms see the Glossary. You can view the Glossary at https://www.healthcare.gov/sbc-glossary, call 1-800-318-2596, or call the Fund Office at 1-800-535-6373 to request a copy.

Important Questions	Answers	Why This Matters:
What is the overall deductible?	$300 per person / $900 per family	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on this plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible.
Are there services covered before you meet your deductible?	Yes. The following do not count toward the deductible: pre-admission testing, hospice care, home health care, Doctor On Demand, and ACIP recommended immunizations.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply.
Are there other deductibles for specific services?	Yes. $100 per lifetime for infertility treatment. There are no other specific deductibles.	You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services.
What is the out-of-pocket limit for this plan?	$2,500 per person / $5,000 per family	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Services for infertility treatment; penalties, premiums, balance billing charges, and health care this plan does not cover.	Even though you pay these expenses, they don't count toward the out-of-pocket-limit.
Will you pay less if you use a network provider?	Yes. *See www.umr.com for a list of network providers. *Out-of-network providers are treated as in-network providers for cost sharing purposes in certain circumstances: emergency treatment by an out-of-network provider, services from an out-of-network provider at an in-network facility, and out-of-network air ambulance costs for emergencies.*	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (a balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.

Important Questions	Answers	Why This Matters:
Do you need a referral to see a specialist?	No.	You can see the specialist you choose without a referral.

All copayment and coinsurance costs shown in this chart are after your deductible has been met, if a deductible applies.

About these Coverage Examples:

This is not a cost estimator. Treatments shown are just examples of how this plan might cover medical care. Your actual costs will be different depending on the actual care you receive, the prices your providers charge, and many other factors. Focus on the cost sharing amounts (deductibles, copayments and coinsurance) and excluded services under the plan. Use this information to compare the portion of costs you might pay under different health plans. Please note these coverage examples are based on self-only coverage.
